**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

***Election of Species***

This application contains claims directed to the following patentably distinct species

- Species 1: First embodiment, as disclosed starting from Par [0185],
- Species 2: Second embodiment, as disclosed starting from Par [0214],
- Species 3: Third embodiment, as disclosed starting from Par [0219],
- Species 4: Fourth embodiment, as disclosed starting from Par [0241].
- Species 5: Fifth embodiment, as disclosed starting from Par [0249].
- Species 6: Sixth embodiment, as disclosed starting from Par [0259].
- Species 7: Seventh embodiment, as disclosed starting from Par [0282].
- Species 8: Eighth embodiment, as disclosed starting from Par [0298].
- Species 9: Ninth embodiment, as disclosed starting from Par [0311].
- Species 10: Tenth embodiment, as disclosed starting from Par [0363].
- Species 11: Eleventh embodiment, as disclosed starting from Par [0379].
- Species 12: Twelfth embodiment, as disclosed starting from Par [0427].
- Species 13: Thirteenth embodiment, as disclosed starting from Par [0467].
- Species 14: Fourteenth embodiment, as disclosed starting from Par [0485].
- Species 15: Fifteenth embodiment, as disclosed starting from Par [0504].
- Species 16: Sixteenth embodiment, as disclosed starting from Par [0563].
- Species 17: Seventeenth embodiment, as disclosed starting from Par [0575].

Species 18: Eighteenth embodiment, as disclosed starting from Par [0585].

Species 19: Nineteenth embodiment, as disclosed starting from Par [0603].

The species are independent or distinct because claims to the different species recite the mutually exclusive characteristics of such species. In addition, these species are not obvious variants of each other based on the current record.

**Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.** Currently, none of the species seems to be generic.

There is an examination and search burden for these patentably distinct species due to their mutually exclusive characteristics. The species require a different field of search (e.g., searching different classes/subclasses or electronic resources, or employing different search queries); and/or the prior art applicable to one species would not likely be applicable to another species; and/or the species are likely to raise different non-prior art issues under 35 U.S.C. 101 and/or 35 U.S.C. 112, first paragraph.

**Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined** even though the requirement may be traversed (37 CFR 1.143) **and (ii) identification of the claims encompassing the elected species**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

The election of the species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other species.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
